[^0]* NOTE
(1) Changes in the State of Material Subsidiaries during the Period: None Newly included: -
(2) Adoption of Special Accounting Methods for the Preparation of Quarterly Consolidated Financial Statements: Yes

Note: For details, please refer to "Application of Special Accounting Methods during the Preparation of Quarterly Consolidated Financial Statements."
(3) Changes in Accounting Principles, Changes in Accounting Estimates, and Retrospective Restatements
(a) Changes in accounting principles accompanying the amendment of accounting standards: Yes
(b) Changes other than those in (a) above: None
(c) Changes in accounting estimates: None
(d) Retrospective restatements: None

Note: For details, please refer to "Changes in Accounting Principles, Changes in Accounting Estimates, and Retrospective Restatements."
(4) Number of Shares Issued (Common shares)
(a) Number of shares issued at the end of the period (including treasury stock)

Third Quarter of Fiscal $2016 \quad$ 24,077,510 shares Fiscal 2015
24,077,510 shares
(b) Number of treasury stock at the end of the period
Third Quarter of Fiscal 2016 371,422 shares Fiscal 2015 396,119 shares
(c) Average number of shares issued during the period

Third Quarter of Fiscal 2016 23,690,592 shares Third Quarter of Fiscal 2015 23,682,743 shares

* The Company consolidated ten shares of its common stock into one share on October 1, 2016, the effective day. As a result, number of shares issued at the end of the period, number of treasury stock at the end of the period, and average number of shares issued during the period have been calculated under the assumption that the aforementioned consolidation of shares was carried out at the beginning of the previous consolidated fiscal year.
* Status of Performance of Quarterly Review Procedures

This note on the settlement of accounts is an exception to the quarterly review process based on the Financial Instruments and Exchange Law, and such quarterly review process based on the Financial Instruments and Exchange Law has not been completed at the time of disclosure of this note on the settlement of accounts.

* Explanation of the Appropriate Use of Performance Forecasts and Other Related Items
(Caution concerning future descriptions etc.)
The above estimate has been compiled based on information available at the time this disclosure was made. The actual earnings are subject to change from the estimated values due to various factors. For assumed conditions underlying the earnings forecast and cautionary statements in using the earnings forecast, please refer to "Explanation Regarding Future Estimate Information Such as Consolidated Financial Performance Estimates."
(Dividends and financial forecasts after the consolidation of shares)
Following the approval of the agenda related to the consolidation of shares at the 122nd Ordinary General Meeting of Shareholders held on June 23, 2016, the Company consolidated ten shares of its common stock into one share on October 1, 2016, the effective day. The forecasts for dividends that were converted before the effect of consolidating the shares was taken into account and the consolidated financial forecasts for fiscal 2016 are as follows.
1 . Dividends per share for fiscal 2016 : $¥ 1.00$ for the end of the second quarter and $¥ 5.00$ (forecast) for the end of the fiscal year (Note 1).

2. Consolidated financial forecasts for fiscal 2016: Net income per share of $¥ 19.00$ at the end of fiscal 2016.
(Note 1) The dividends are those that were converted before the effect of the consolidation of shares was taken into account.
(Note 2) Forecast annual dividends per share for fiscal 2016 (before taking into account the effect of the consolidation of shares) are $¥ 6.00$.

4. Qualitative Information Regarding Results of the Third Quarter for Fiscal 2016
(1) Explanation Regarding Consolidated Operating Results

The global economy during the period of this consolidated cumulative third quarter saw steady performance in the United States and a sustained recovery in Europe. On the other hand, economic growth in China and emerging economies continued to slow down, although it began to show signs of recovery. Overall, the global economy staged a gradual recovery. The economy in Japan remained on a gradual recovery track, mainly reflecting improvement in the employment environment and the recovery of industrial production, despite sluggish individual consumption.
Under these conditions, the Topy Industries Group started the medium-term consolidated management plan, "Growth \& Change 2018," under which the Group aims to achieve sustainable growth and become a company that provides job satisfaction to its Employees. As one part of this plan, the Group accelerated its global business development. This included strengthening the strategic partnership with MW ITALIA S.R.L. in the steel wheel business and efforts to strengthen the production capacity of industrial fasteners at overseas bases. The Group also continued to work on establishing a production system that can respond flexibly to demand, improve productivity, and lower costs primarily through energy conservation activities.
As a result, net sales for this consolidated cumulative third quarter for the Topy Industries Group were $¥ 150,152$ million (year-to-year comparison, $8.2 \%$ decrease). Operating income was $¥ 5,349$ million (year-to-year comparison, $22.2 \%$ decrease), and ordinary income ended at $¥ 459$ million (year-to-year comparison, $23.9 \%$ decrease). However, third quarter net income attributable to owners of parent ended at $¥ 3,197$ million (compared to third quarter net loss attributable to owners of parent of $¥ 881$ million the previous year).

## Performance by Segment

## (Steel Business)

In the electric steel furnace industry, crude steel production fell year on year due to sluggish performance in demand for steel materials. Furthermore, challenging conditions continued in the third quarter, mainly due to the surge of prices of steel scraps, the main raw materials.
In this environment, net sales of the Topy Industries Group came to $¥ 46,283$ million (year-to-year comparison, $5.4 \%$ decrease) due to lower sales prices despite efforts to reclaim demand and increase export of deformed selection, and expansion in sales quantity. Operating income ended at $¥ 2,449$ million (year-to-year comparison, $30.8 \%$ decrease), due to decrease in gap between sales prices and prices of steel scraps.

## (Automotive \& Industrial Machinery Components Business)

Domestic automobile production remained almost unchanged year on year, chiefly because of a decrease in exports of trucks, in addition to prolonged sluggish sales of light vehicles. On the other hand, demand for automobiles remained firm in the US. In the construction machinery industry, domestic demand decreased, but demand in the Chinese market showed signs of recovery. Demand for mining machinery continued to remain low.
In this environment, net sales declined $8.2 \%$ year on year, to $¥ 93,094$ million. This mainly reflected the effects of a stronger yen as well as a fall in sales volume of wheels for trucks, although sales volume of undercarriage parts of construction machinery increased centered on China. On the other hand, operating income rose $28.2 \%$ year on year, to $¥ 4,514$ million. This was attributable to the consolidation of production bases in China and cost improvements.

## (Power Business)

The Group continued the stable supply of electricity through coal fired power generation in line with its business plan. However, because electric power price significantly fell as a result of a sharp drop in crude oil and LNG prices, net sales were $¥ 6,199$ million (year-to-year comparison, $20.7 \%$ decrease). On the other hand, because the drop in the price of coal, a power generation fuel, was minimal, operating income amounted to $¥ 395$ million, down $77.6 \%$ year on year.

## (Others)

The Topy Industries Group also engages in the manufacture and sales of synthetic mica used in cosmetics and other products, the manufacture and sales of crawler robots, indoor and outdoor sign systems, civil engineering and construction, leasing of real estate such as Topy-Rec Plaza (Minami-Suna, Koto-ku, Tokyo), and the operation of the sports club OSSO. Net sales were $¥ 4,574$ million, and operating income was $¥ 1,153$ million.
(2) Explanation Regarding Financial Status

Total assets at the end of this third quarter consolidated accounting term declined by $¥ 3,670$ million from the end of the previous consolidated fiscal year to $¥ 227,913$ million. This was mainly due to a decrease of $¥ 4,401$ million in cash and deposits, an increase of $¥ 2,267$ million in notes and accounts receivable-trade, a decrease of $¥ 5,618$ million in property, plant and equipment and an increase of $¥ 3,746$ million in investment securities.
Liabilities were $¥ 127,872$ million, a decrease of $¥ 3,737$ million from the end of the previous consolidated fiscal year. This mainly reflected an increase of $¥ 5,550$ million in accounts payable, a decrease of $¥ 5,793$ million in interest-bearing debt, a decline of $¥ 1,212$ million in income taxes payable and a fall of $¥ 1,114$ million in other current liabilities.
Net assets were $¥ 100,041$ million, an increase of $¥ 67$ million from the end of the previous consolidated accounting year. This was mainly due to an increase of $¥ 1,776$ million in retained earnings, an increase of $¥ 2,642$ million in the valuation difference on available-for-sale securities and a decline of $¥ 4,356$ million in foreign currency translation adjustments.
(3) Explanation Regarding Future Estimate Information Such as Consolidated Financial Performance Estimates

Going forward, the Japanese economy is expected to recover moderately, supported primarily by improvements in the employment and income conditions as well as the economic measures enacted by the government. However, the business environment surrounding the Group will remain unpredictable due to uncertain factors, such as the emergence of protectionist movements centered in Europe and the United States, the economic slowdown in China and other emerging countries, and overcapacity in China.
Under these business conditions, the Topy Industries Group started the medium-term consolidated management plan, "Growth \& Change 2018." The implementation period for this plan is three years, and it starts from the current fiscal year. Working in line with this plan, the Group will aim to achieve sustainable growth by steadily carrying out a number of measures. These measures include the acceleration of the global development of the automotive and industrial machinery components businesses that the Group regards as drivers of growth, expanding the lineups of products by taking advantage of the Group's unique technologies in the steel business, and taking on challenges of developing new businesses related to crawler robots and mica. The Group will work to transform itself into a company that is able to provide job satisfaction to individuals that will play leading roles by ensuring they have every opportunity to fully exhibit there potential.
The full-year consolidated financial forecast remains unchanged from the forecast announced on May 10, 2016. The forecast is based on information available at the time this document was published, and thus the actual results may differ materially from the forecast due to a variety of factors.

## 2. Items Regarding Summary Information (Other)

(1) Significant Transfer of Subsidiaries during this Consolidated Cumulative Third Quarter

Not applicable
(2) Application of Special Accounting Methods during the Preparation of Quarterly Consolidated Financial Statements

Tax expense is calculated by multiplying the quarterly net income before taxes with the estimated effective tax rate. The estimated effective tax rate is a reasonable estimate of the tax rate after the application of tax effect accounting on current net earnings before taxes of the consolidated accounting year including this third quarter consolidated accounting term.
(3) Changes in Accounting Principles, Changes in Accounting Estimates, and Retrospective Restatements

Change in Accounting Principles
(Application of Practical Solution on a Change in Depreciation Method Due to Tax Reform 2016)
Following the revision to the Corporation Tax Act, the Company and the Company's domestic consolidated subsidiary companies adopted the "Practical Solution on a Change in Depreciation Method Due to Tax Reform 2016" (ASBJ PITF No. 32, June 17, 2016) effective from the first quarter consolidated accounting term. It also changed the depreciation method for facilities attached to buildings and structures acquired on or after April 1, 2016, switching from the declining balance method to the straight line method.
The effect of the change on the Company's operating income, ordinary income, and profit before income taxes and noncontrolling interests for this consolidated cumulative third quarter is minor.

## Additional information

(Application of Implementation Guidance on Recoverability of Deferred Tax Assets)
The Company adopted the "Implementation Guidance on Recoverability of Deferred Tax Assets" (ASBJ Guidance No. 26, March 28, 2016) effective from the first quarter consolidated accounting term.
