TOPY INDUSTRIES, LIMITED

Establishment of Basic Sustainability Policy

The Topy Industries Group (below, “Topy Group”) has established a Basic Sustainability Policy.

Under this basic philosophy, the Topy Group will contribute to the realization of a sustainable recycling-oriented society by aiming to solve a wide range of social issues, and aim to continue to be a global company that earns the trust of stakeholders and meets the demands of the times for many years to come.

Basic Sustainability Policy

The Topy Industries Group will promote management based on the Group Basic Philosophy and aim to enhance sustainable corporate value and contribute to the sustainable development of society through the pursuit of technological innovation and the resolution of social issues.

- By continuously taking on challenge of green innovation, we will contribute to the preservation of the irreplaceable global environment and its inheritance into the future.
- We aim to realize a sustainable and prosperous future for all people involved in the business activities of the Topy Group.
- We will strive to realize sound and highly transparent management that is trusted by all stakeholders.

The Topy Group aims to realize the Group Basic Philosophy and promote sustainability initiatives in line with this policy to enhance corporate value and realize a sustainable society through its corporate activities.
